

## *Creating essence, spice and style for your home*

With a reputation for unparalleled creativity and effortless style, we relish every project no matter the scope. Designing interiors is like telling a story, the story of the inhabitants and like any good story, it must convey the owners' personalities. Listening carefully to your wants and needs is the key to success.

Having us as your interior design specialist makes your decorating experience fun and stress free. We talk through the options, helping you identify what feels best for you and your family. Forging close relationships with you to build trust is vital, as it gives you the confidence in the process and allows us to do what we do best - deliver your dream home. Each job is tailored according to the specific needs and personal style of each client.

From designing bespoke pieces of furniture, to selecting colour palettes, wall coverings, flooring or window treatments, to deciding on furniture placement, for a single room or a whole house we work alongside you to create interesting, stylish and inspiring spaces you will love to call home - all within your budget and timeframe.

We do provide individual quotes for every project, however please take a look at our design packages for a price indication of our design services.

## HOW THE PROCESS WILL WORK

Once we have agreed on the interior design package (e.g 3 hr package), an invoice and our terms of engagement will be sent to you. A 40% payment of this invoice and returned signed terms of engagement is required to secure our services. The remaining 60% of this invoice is due once the project is completed.

On receipt of the above, we begin the first stage, sourcing relevant materials for your design including fabric samples, furniture brochures and paint samples etc. We then arrange a meeting with you to discuss the design scheme we have put together.

On your approval of the design scheme, we send a new quote for the cost of the furnishings, furniture and installation etc. Upon acceptance of this design scheme quote and receipt of the 40% deposit of the design scheme quote, the project will begin.
